CSC4093: Neural Networks and Deep Learning (2023/24)
Programming Assignment 01
Due on or before 11.59pm on Friday, February 28, 2025

Modify the code of the sample perceptron implementation discussed in the class to compute the test accuracy. The code is available on the LMS page. You may increase the number of data samples.

You may upload the .pynb file of the code.
